

- From idea to execution -

About Us

LK_{SA}, formerly known as Latreuo Kitchens and LK Interiors, was established in 2004. Latreuo Kitchens, meaning “to serve” in Greek was started by owner, Anton Niemand. We specialise in the design and construction of customised kitchens, kitchen renovations, built-in cupboards, bathroom vanities, furniture and more. We specialise in two departments, one focusing on residential clients and the other on developments.

At LK_{SA} we help you from idea to execution. We will advise you on all aspects of your project, taking your ideas and creating a design based on it. At LK_{SA} we advise you on all material, colour finishes, hardware and how to maximise your space for a great design. We provide you with a full set of 2D and 3D designs, so that you can visually see your project come to life. When you are happy with your designs, we manufacture your project in our factory in Okavango Park, Brackenfell.

We take pride in completing a project with top quality – focusing on the products used, hardware used and the quality our cabinet fitters produce on site. We take every measure to ensure your project is installed perfectly and that it is everything you had in mind.

Health and Safety

LK_{SA} pride ourselves in Health and Safety. We have a Safety Plan in place for all our developments.

We are registered with the Bargaining Council, MBA and BIBC. We are also registered with the Department of Labour who issues our Letter of Goodstanding.

At LK_{SA} we are compliant. On each development site we have a Safety Officer to oversee Health and Safety.

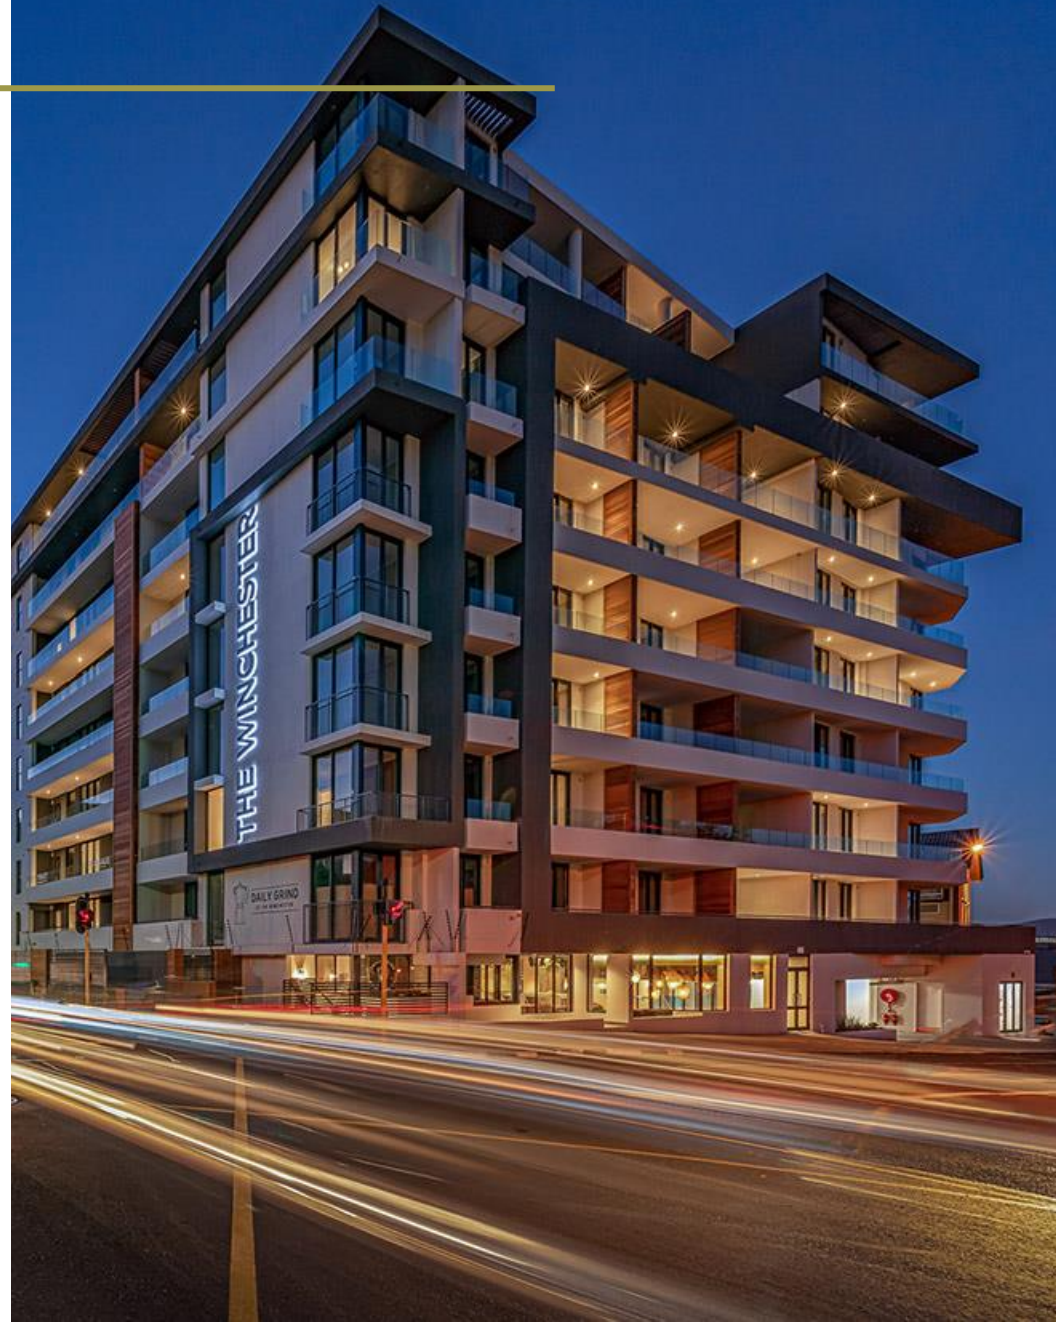

Development Projects

LK_{SA} as a cupboard project management company specialises in developments and has worked on numerous projects over the past years.

We have worked on various developments over the years and allowed us to truly master the art of bulk production for large scale developments. We have worked on many projects for Rawson Developers, WHBO, Aveng Grinaker Ita, PJS, DMP and more.

- Factory in Okavango Park, Brackenfell to prepare for site
- Design, manufacture and installation services
- Dedicated delivery trucks
